

PANZAR STORMS EUROPE!

Free-to-play fantasy MMO *Panzar* launches in Europe 22.4.2013
with fully localized content for English, German and French!

Panzar is a free-to-play fantasy MMO that focuses on team based matches with a heavy player vs. player component. Combining fast paced gameplay with stunning graphics, *Panzar* overpowers all foolhardy foes on any given battlefield!

Created by Panzar Studio, *Panzar* first saw daylight in April 2012, when it was released in Russian open beta to great acclaim. In less than a year, *Panzar* had already attracted over a million players, guaranteeing the game's place in the top of the food chain.

With the Russian launch a resounding success, Panzar Studio has prepared to assault Europe with fully localized content for English, German and French. The moment is now.

On April 22nd 2013, *Panzar* unleashes its war machine on Europe!

Combining the award winning CryEngine 3 graphics engine with extremely fluid gameplay, *Panzar* offers something its competitors cannot match: stunningly detailed battles in lush landscapes that crank the concept of high fantasy conflict to a new level of epicness, while the core gameplay links easy-to-learn mechanics with complex character advancement and impeccably balanced character class choices.

Teams of ten players will be pitted against one another in four different game modes: clashing for **Domination** of strategic locations, playing **King of the Hill** for keeps, putting the enemies under **Siege**, or using **Blitz** tactics to retrieve a priceless artefact.

Panzar will challenge everyone and anyone for the title of best online battle *ever*!

Every battle rewards you with gold! Every kill awards you with XP!

Enjoy the spoils of war, and crush your opponents like the puny insects they are!

The time for talk is over!

Choose your destiny.

"Best Online Game 2012 Award"

-GMBBox.ru in Igromir 2012

"Best Russian Game 2012"

-Kanobu

"Panzar makes a claim for a high position in the world of cybersport" - [Russia 2 Federal News](#)

"More interesting and cheerful than its famous competitors" - [games.mail.ru](#)

"They make AAA-games in Russia now!" - [Kanobu.ru](#)

Panzar is a completely free game. All you need is a PC and an internet connection, and you're set. No portion of the game is blocked from you, and no gameplay content will be denied of you. Everything is, and will remain, free.

The game does offer the option of spending money on micro transactions that boost your character advancement speed, save you time in obtaining the items you most desire, and even level your character instantly up so you don't have to waste any time in collecting XP or gold!

Panzar Studio was formed in 2007 from the merger between two respected specialist companies, Panzar Studio and AriOrH Studio. With years of experience in producing quality content for various game developers, it was time to create something of their own: *Panzar*.

Powered with the ultramodern game engine **CryEngine 3**, *Panzar* rapidly gathered both critical acclaim and a massive player base. *Panzar* has now turned its gaze west, to the lush greens of Europe, where it will be published and distributed by **Panzar Europe Oy**.
