Game Description (2-3 sentences):

In *Strange Journey Redux*, you play as a brave United Nations soldier investigating a spatial anomaly called the Schwarzwelt—a dome of dark energy that threatens to consume the world. Inside, you'll find it home to a nightmare mirror of our own Earth, populated with demons dying to meet you.

Features (2-3 bullets):

- **A Stranger Journey Back** The game touts brand-new illustrations by Masayuki Doi, updated visuals, UI tweaks, and more to make this journey back into the Schwarzwelt... even stranger.
- **Additional Story Content and a Brand-new Character** – You won't be retreading the same nightmarish path as before because a brand-new character named Alex will play a major role in how the story unfolds. Much about her is a mystery, but there is one thing you know for sure: she's got a bone to pick with you. Joining her are new demons you might recognize from other SMT entries, new endings, and a new dungeon to die in—I mean, discover.
- **A True Shin Megami Tensei Adventure** – With its twisted demonic sci-fi story, addictive demon-collecting fun, and multiple narrative paths to explore, *Strange Journey Redux* is an essential ATLUS JRPG adventure that can't be missed!
